

*MICL has a special trip planned for
October 26, 1920*

**Please come and explore the San Francisco Bay Model
Visitor Center**

The Bay Model Visitor Center is a fully accessible education center providing scientists, educators, and visitors a unique opportunity to view the complete San Francisco Bay-Delta system at a glance. It provides public information and educational programs focusing on the environmental, historical, and cultural elements of the San Francisco Bay region. These educational programs focus on concepts such as geography, geology, tide cycle, water cycle, the food chain and map scale. The Model is one of the largest working hydraulic models in the world.

What a thrill to see it on operation.
