

**MICL is Hitting the Road Again
This Time to a Treasure in Our Own Backyard**

**April 1st Science Night at the Great Valley Museum
2201 Blue Gum Avenue, turn on Fourth St.
Meet at the Entrance 6:30pm**

Wonder at the Natural History Museum Permanent Exhibit

Which focuses on the five existing habitats found in California before colonial settlement and agricultural expansion, dated pre-1800's.

Admire the Rotating Exhibit Art Installation by Sayaka Ganz:

"Reclaimed Creations" Utilizing reclaimed plastic objects such as discarded utensils, like brush strokes which appear visibly unified at a distance though separated up close. She describes her style as "3D impressionism."
