THE FALL AND RISE OF CHINA: We will continue our historical examination of China after the death of Mao in 1976 and view the leadership of Deng Xiaoping as China rises from the ashes. In the 1980s, we'll talk about how the government oscillated uncertainly between reform and retrenchment, resulting in a series of stalled initiatives and partial reforms. Session B will end with the student leaders launching a hunger strike in Tiananmen Square.
