Sciabica Family

California Olive Oil

Since 1936, we've been cold pressing olive oil in California. That makes us by far the oldest producer in the US! My great-grandfather (Nicola) and my grandfather (Joseph) began with the artisan knowledge of olive oil production Nicola learned in Marsala, Sicily as a young man. This knowledge has now been passed on for four generations. Today we carry on our family tradition of making the highest quality 100% Extra Virgin Cold Pressed Olive Oil available anywhere.
