**AMAZING BIRDS:** Do you enjoy nature and learning more about it? Birds are among the most ingenious and adaptive of all animals, and a marvel of the natural world. We will be joining biologist and bird expert Bruce E. Fleury PhD. for his Great Courses/Wondrium series: The Scientific Wonder of Birds. We will learn about birds evolutionary history, the magic of flight, the mystery of migration and navigation, and much more about the remarkable lives and behaviors of birds. Whether you are an expert birder, or a complete newcomer, join us as we learn about these beautiful and amazing creatures.
